## How to use the template:

### 1 Log in or create a FREE Canva account

CANVA is a graphic design application available online at [www.canva.com](http://www.canva.com). It is easy to learn and features an intuitive drag-and-drop interface that is perfect for non-designers. Access your templates from any device - no software required.

### 2 Use the links to access the templates

By clicking the boxes to the left, you will be directed to the templates in Canva. Start editing and customizing your template. You can edit anything you would like including images, elements, fonts, and colors.

### 3 Export designs to JPG and upload to your social accounts

Once you are done editing your file, use the "Share" button on the top right corner to them as JPG images for posting or printing. You can edit your template over and over again as needed.

\*Please use the desktop version of the app to access and edit this template for best results. Some features used to create this template are not yet available in Canva Mobile app.
